If we can get the fine arts scene started in Moab, everyone will profit: the tax base, the artists, real estate, the tourist industry. Santa Fe does between \$131-170 MILLION dollars per year in art sales. Moab could tap into that market. When the Moab art scene gets rolling, local real estate will appreciate immensely. Right now, Moab needs a working airport so buyers and tourists can get here easily. Moab need seed money to get the artworld rolling. There are many local artists and volunteers. The big name artists will show up. Someday, way down the road, the spur line which is currently being used to move the Uranium Pile could be a spur line to Thompson so tourists could come to Moab by Amtrak.	3	71+	Yes	Male	\$40,001 - 60,000/yr

How about an artists community housing/ workshop / teaching place/ youth garden / tourist attraction/ art festival similar to the music festival/ summer camp for youngsters and older youth. A vibrant & successful arts community in Moab will provide another path to a varied economy. Moab has failed to realize the potential in our scenery to draw name artists & art patrons. The two big music festivals are doing this successfully. The arts could provide an additional revenue source to the "adventure travel" and tourism we now have. A strong resident arts community could provide stability not always present in tourism.	4	71+	Yes	Male	\$60,001 - 80,000/yr

The Moab area has some of the best landscapes for plein air painting in the world. That alone makes it worth the trip to Moab to paint, but a healthier art scene and a more nationwide, or even worldwide reputation for the arts would be an even bigger draw. Moab has a worldwide reputation for other things (4 wheeling, biking, rafting, national parks, etc.), so why not art? That might take time, I realize, but I think it would be well worth it!	3	51-60	Yes	Male	\$0 - 20,000/yr
